Dear Friends,

Cullen Foundation is excited for the launch of the **2023 Cullen Scholars** application process.

Though our ***Cullen Scholars*** program, Cullen Foundation assists families of high-achieving students in mitigating the financial challenges of attaining a **private** middle school and high school education. Cullen Foundation believes that access to high quality education is critical for individual and community success. To this end, we provide an opportunity to a select group of high-performing students to attend a private school in the [BISON Scholarship Fund network](#) (Erie County only). **The entry point for this scholarship is grade 6** (*i.e., for the 2023-24 school year*).

Scholarships are partial and renewable for ***up to six years*** while student attends a BISON or EdCo school, contingent on meeting our academic and financial criteria each year. For the 2023-2024 school year, Cullen Foundation will grant scholarship awards as follows:

- The award for Middle School Scholars in 2023-2024 will cover base tuition up to **\$4,050** and a technology and activity stipend of **\$250** annually.
- The award for High School Scholars in 2023-2024 will cover base tuition up to **\$12,750** and a technology and activity stipend of **\$500** annually.

Please feel free to share this information with school staff, community partners or interested parents and families. Please note that the entry point for this scholarship is grade 6 (*i.e., for the 2023-24 school year*).

If you have any questions, need technical assistance while completing the application process or would like to speak about the Cullen Scholars program please email Nick Schifano at nschifano@thecullenfoundation.org or Jessica Cristiano at jcristiano@thecullenfoundation.org.
